Subject: *** Auction #109 Closes this Week! ***

Greetings!

I'm back from a show in Orlando and ready to start getting organized for my next show in Tucson. Lots of new updates and new mineral specimens are on track for the website beginning in February so stay tuned!!!

First things first however.... Auction #109 will officially close on Wednesday (January 10th) at 8 PM central / 9 PM eastern. I was updating the auction tonight and surprised to see that

some of the best specimens are still without opening bids. There are just three days left to visit the auction and place or update your bids so now's a great time to do so. Don't miss out on this opportunity to get high-end mineral specimens at mid-range specimen prices! Some of the items still needing bids are:

Dark Pink Fluorite crystals on Orthoclase from Switzerland at nearly 40% off! Gorgeous multi-habit Calcite specimen from Illinois at nearly 50% off! Incredibly aesthetic Golden Topaz with Muscovite and Albite from Pakistan at 50% off! Very fine Silver crystals on Native Copper from Michigan at 40% off! Gemmy Emerald crystal on Calcite from Colombia at nearly 40% off!! Definately the FINEST Chinese Amethyst with Calcite specimen I've ever seen at 45% off! Large, perfect Sphalerite crystal with gem Rubyjack xls (Zinn collection) at nearly 50% off! AND MANY MORE!

Prices this low will not be repeated anywhere except in the mineral auction. Auction 109 is located at: <http://www.exceptionalminerals.com/auction.htm>

Also.... I've received numerous requests this week to repost the Tucson 2003 rooms link to give people one more shot at the 50% mineral discounts. I'm going to place the link here on this update for the final time and open the rooms until Wednesday but then they will be removed from the website and all specimens returned to consigners and the back shelf. This is definately the last chance to take advantage of the huge discounts.

The Tucson 2003 rooms are located at:

Thanks again and good luck to all auction participants!

Kevin
