Subject: 2007 Tucson Show update

Greetings from Tucson:

I have prepared the first report from the show and have uploaded hundreds of new specimens including about 300 from Tsumeb and some of the new fabulous gold specimens from Round Mountain, Nevada.

To see what is new so far from here visit:

<http://www.trinityminerals.com/tucson2007/specials.shtml>

There is a heck of a lot more to come from here in Tucson so check back frequently. I can tell you that the next update will have some of the incredible new rhodonite specimens from both Brazil and Peru and some new calcite specimens with iridescent pyrite on them.

To be deleted from this list simply reply with the word remove and you won't hear from me again about minerals.

Cheers from Tucson,

John Veevaert
