Subject: ** The 3rd Tucson 2007 Update is Online! **

Greetings!

The Third Tucson Show 2007 Update is now online!

As with the prior update, this update will appear in portions rather than all at once to make browsing easier and to avoid overwhelming everyone with the large number of new specimens.

The first half, consisting of three new mineral rooms, is now online and ready for viewing! This update includes rooms 13, 14 and 15 located at the following links...

<http://www.exceptionalminerals.com/tucson2007-13.htm>
<http://www.exceptionalminerals.com/tucson2007-14.htm>
<http://www.exceptionalminerals.com/tucson2007-15.htm>

The second half of this update will appear next Monday and will consist of at least three additional rooms and possibly one or two more! I'll e-mail another notice next week when these rooms are available online.

This update is going to be one of the largest yet and the specimens are all top quality! You will find a good number of Gold and Silver specimens as well as a broad offering of Rhodochrosites from around the world! We received one of our largest collections of Sweet Home Rhodo in the past several years and these are included in the update.

Enjoy the new specimens!

Kevin
