Welcome to Wrights Rock Shop

I thought that you might be interested in a few of the new minerals currently being found - Calcite Jiangxi, China. (Very impressive clear calcite on the edge); Actinolite in Quartz - Yunnan, China; (A new find that I tried to purchase all of the pieces) ; Pyromorphite with Cerussite - Guangxi, China. (Very fine cerussite with very good pyromorphite. Also, pyromorphite crystals up to 4 cm in a separate find) ; Prehnite on Quartz - Meigu, Sichuan, China; (Stalactitic quartz with prehnite) ; Fluorite on Stibnite - Guizhou, China. (A small cache of an old find).

I will add these to the website when I return home.
