**Subject:** \*\* New Summer 2007 Mineral Update! \*\*

Greetings!

Just a quick notice that Summer Update Room 8 is now online and ready for viewing! This new mineral room features some of my latest finds including a gem Emerald on dark Calcite from Columbia and two incredible Covellite specimens from Butte, Montana! Add to this a gorgeous Aquamarine cluster, rare Silvers and Gold from South Dakota, and additional fine specimens from my personal Tsumeb collection and you've got a nice selection to browse through.

Summer 2007 Room 8 can be found here:

Thanks again for making us your source for fine minerals!

Kevin
