**Subject:** Greenside Minerals - New Specimens

Hi,

Our new update consists of 10 very affordable, aesthetic spessartine pieces from the famous Wushan Mine in Fujian province, China. We've chosen a mix of specimens that demonstrate the quality of the smoky quartz and albite crystals rather than simply concentrating on the spessartine garnet.

We have also stopped using HSBC bank to process credit/debit card payments concentrating instead on the PayPal service. This has been done to help us control our costs and offer the best service possible to our customers.

Regards,

Gary Atkinson
