Subject: 1916-2007 Am Min online

Dear MSA Member,

This is a departure from the usual message about the newest issue of the journal being posted online. This is a message to tell you that the complete run of the American Mineralogist, beginning with volume 1, number 1 (1916), is now online at <<http://www.minsocam.org/MSA/ammin/toc/>>.

The articles are scanned pdf's files with OCR text behind the page images. This means you can search both the complete journal run (by using the Google Search box on the MSA home page, and selecting the "Search minsocam.org" radial button) and individual articles that you download.

The pdf's were created by the RRUFF project with additional funding from the National Science Foundation EAR-0622371 towards development of the American Mineralogist Crystal Structure Database <http://www.minsocam.org/MSA/Crystal_Database.html>. MSA appreciates the support through Bob Downs that allowed this to happen, as well as the efforts of the webmaster, Gordon Nord, in posting these on the MSA website
