Greetings!

Announcing Denver Show 2007 Update #2!

This new update introduces over 40 new specimens, many of which are museum quality and some that were actually in a museum - the Philadelphia Academy of Natural Science!

In rooms 7 and 8 you will find:

Incredible Sweet Home Rhodochrosites  
Rare Kongsberg crystallized Silver with Fluorite  
A pre-Yellowstone Park Amethyst specimen  
Extremely rare Siberian Silver Wire on matrix  
Gem Legrandite crystals on matrix  
Old classics from long gone mines and localities  
Precious Fire Opal from Lightning Ridge  
Yellow Spodumene with Smoky Quartz  
Huge Naica Fluorite on Galena  
Russian Orange Quartz clusters on matrix  
A bizarre and truly unique Indian Zeolite  
Huge orange Scheelite on matrix  
Classic and rare Silvers besides those mentioned above Incredible Malachites Gorgeous Rhodonite and Spessartine from Broken Hill

And much more!

The new Denver 2007 Rooms can be found using these links:

All the Denver 2007 Rooms can be accessed beginning here:

<http://www.exceptionalminerals.com/denver2007.htm>

As always, I welcome all questions and offers. These are some of the finest specimens that will appear from the show so please don't hesitate to e-mail me.

Enjoy the new specimens!

Kevin
