**Subject:** New Finds of Purple Calcite Twins, Pyrite Concretions

## Welcome to Wrights Rock Shop

I created Tucson 2008 Gallery with the new finds from China of purple/pink calcite and calcite twins; the very clear calcite twins, beta quartz with hematite; sphalerite on quartz with sphalerite inclusions; smoky quartz on feldspar; barite; pyrite concretions; and fluorite stalactites.

The very clear twins and purple/pink calcites are truly unique and among the best found.

Please remember to mention that you are a member of Wrights Mineral News for your 10% discountion.
