### Welcome to Wrights Rock Shop

I created Tucson 2008 Gallery with the new find of fluorite and barite from Morocco, Johachidolite, clinohumite, petalite, painite, azurite and malachite after azurite from Milpilas, Mexico, aurichalcite, and calcite (pokerchip) on 2/10/08.

The fluorites are photographed in sunlight and need to be cleaned. They are very good penetration twins with unique color.

The excellent silver from Morocco was not included because I do not want to ship.

Please remember to mention that you are a member of Wrights Mineral News for your 10%.
