Subject: minernet.it : first update after Tucson

dear Dave,

In Tucson Daniele got more than 500 specimens that arrived safely by air in these latest days. This one is the first important update after Tucson of our site
www.minernet.it

we have posted many new samples that we got at Tucson especially miniature of rare minerals but not only.

Today , 3rd March , we have added following showy and/or systematic samples: Meionite, Pseudomalachite, Wulfenite, Lepidolite, Topaz, Elbaite, Lollingite, Siegenite, Austinite, cobaltoan Calcite, Uvite, Sturmanite, Apatite, Kottigite, Adamite, Loparite, Kesterite, Leightonite, Covellite, Cerussite, Kolwezite, Talmessite, Langite, FLuorite, Monazite, Anatase, Minyulite, Fluellite, Spangolite, Ludwigite, Cornetite, Cumengite, Lindgrenite, Hausmannite, Karpatite, Levyne, Libethenite, Parisite, Mimetite, Pyromorphite, Syngenite, and some others.....

Write please this on your site.

Thank you
friendly

for minernet.it
