**Subject:** Website Update

Hi Folks,

The Dakota Matrix website was updated Today with several reare species and cabinet specimens. You can view these at [http://www.dakotamatrix.com/category.asp?ID=6&specimen\\_code2=05/20/2008](http://www.dakotamatrix.com/category.asp?ID=6&specimen_code2=05/20/2008)

We have had issues with our servers for the past few weeks. The website is acting a little slow. We are taking measures to rectify this situation and appreciate your patience.

thanks  
Tom
