**Dear Dave,**

We hope you've had a chance to check out our new website. It does seem to be working well. Based on feedback from our customers, teething troubles appear to have been minimal.

Our next step is to transfer our email newsletter to our new platform. See details below. The result should be a more regular newsletter for you to peruse.

Our trip to the Lismore Gemfest was very interesting. It was our first time at the Gemfest and we were impressed by the number of stalls and by the quality and quantity of mineral specimens on offer. We had a great time. Over the course of the weekend, the weather proved to be very even-handed, balancing wind, sunshine, heat and cold to ensure buyers visited every stall!

Our itinerary is a little short on detail at the moment, but by the end of the month, we should have the second half of 2008 planned out.

Best wishes, and happy collecting!

**Just a reminder: if you are having trouble displaying the images in this newsletter, you may need to click the 'display content' link at the top of your page. Also, adding our email address to your address book will in many cases solve the problem.**

## Migrating our newsletter to the new web platform

Over the next week or two, we will enter your newsletter subscription details onto the new platform.

If you already have an account with AA Mineral Specimens, or have registered to subscribe on our new website, the transfer will be seamless. You won't need to do anything.

If you don't currently have an account with us ***you still won't need to do anything.***

You will be subscribed to the newsletter on the new site and a bare-bones account with AA Mineral Specimens will be created. You will receive a system-generated email advising you of your new account. If you wish, you can log in and modify your details, but this is entirely optional. When making a purchase, you will be able to use this account.

## Our Itinerary

### **GOSFORD FESTIVAL OF TREASURES**

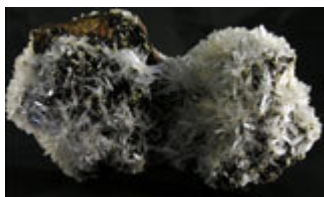

Gosford Showground

Friday 6<sup>th</sup> June - Monday 9<sup>th</sup> June

## New Stock

**See our website for more information on all these [new items](#).**
