**Subject:** \*\* The 1st ever Pre-Dallas Show Mineral Sale! \*\*

Greetings!

The boxes have finally been opened, the mineral specimens organized, and the first update from the Dallas Mineral Show is now online! Actually, this is a merger of sorts because it features specimens from both the Tucson and Dallas Shows but that only makes the offering all the more interesting. Included in this update are:

- \* 4 new minerals rooms - 15, 16, 17, and 18
- \* A new 92lb + Atocha Treasure Bar from the famous shipwreck (Room 18)
- \* Specimens from the Perry, Goings, Ferris, Minette, Ed David, Sinkankas, and Key Collections
- \* New offerings from the Kevin Ward Silver and American Classics Collections
- \* Museum quality mineral specimens from around the world
- \* A huge 35.4 ounce Gold Nugget from Northern Australia - The "Providence Nugget"

and much, much more! This is one of the most exciting updates to come online this year!

The links to the new mineral rooms are:

<http://www.exceptionalminerals.com/tucson2008-15.htm>  
<http://www.exceptionalminerals.com/tucson2008-16.htm>  
<http://www.exceptionalminerals.com/tucson2008-17.htm>  
<http://www.exceptionalminerals.com/tucson2008-18.htm>

Enjoy the new minerals! Some of these will be the finest you will see this side of a museum case. Unlike a museum, however, these can be added to your personal collection! As always, all offers are welcome and minerals may be purchased using our extended layaway purchase option.

Kevin
