**Subject:** 4 September 2008 New stock, Featured items

4th September 2008

Dear Dave Barthelmy

We have listed some very displayable items in our new stock this week. A couple are very much museum quality, and they are all very attractive and unique. We are particularly pleased with the calcite specimens.

We are also featuring a couple of Euclase specimens that we have on the website. We also have a Euclase specimen on our **[e-rocks promotion](#)** that finishes in a few days' time.

It's only a couple of weeks now to our first home-based Spring Fair at Galston in Sydney's north east. If you are going to be there and want us to bring a particular specimen along, please let us know.

Happy collecting!

Susan and Bruce
