**Subject:** Japanese twin calcite, Macle spinel, others

## Welcome to Wrights Rock Shop

I updated Gallery 22 with scheelite, Japanese twinned calcite, fluorite on quartz, macle spinel,, autunite, wulfenite, diopase, calcite, fluorite, and other on 1029/08.

The Japan law twins are very good and no longer being found. The spinel set has several Star of David crystals. Overall, there are older minerals in this update.

Please remember to mention that you are a member of Wrights Mineral News for your 10% discount.
