**Subject:** Greenside Minerals - New Specimens

Hi,

Our latest update features a number of miniature elbaite crystals from Afghanistan, including an attractive blue-cap, together with 2 perfectly formed rubies and 3 vesuvianites from Pakistan. The main specimen is an aesthetic combination piece consisting of green tourmaline with contrasting pink kunzite.

UK customers can now order copies of Andrew Tindle's superb new book "Minerals of Britain and Ireland" on the Greenside Minerals website. We also have copies of Bob Symes' "Minerals of Northern England".

We hope to see some of our UK customers at the Haywards Heath mineral show on Saturday 15th November. We will be displaying new specimens from China, India, Pakistan and Afghanistan. We will also have copies of the 2 new books mentioned above. And the authors should be available for book signings!!!

Regards,

Gary Atkinson
