Dear Dave Barthelmy

We don't have all that many new specimens this week, but some of them are spectacular, so we didn't want to wait any longer to bring them to your attention. The emerald from the Urals is very impressive, as is the very large spinel specimen from Sri Lanka.

We've both had a few days off with family over the Christmas break, but we are back on board now...although we are just about to celebrate New Year's Eve – so best to send you the newsletter first..

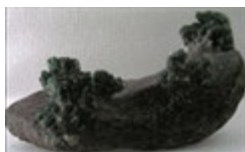

Happy collecting and all the very best for 2009 – let's hope it's better than the pundits predict!

Best wishes

Susan and Bruce

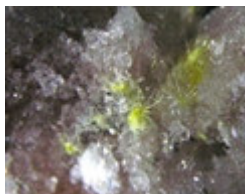

NB: If you are having trouble displaying the images in this newsletter, you may need to click the 'display content' link at the top of your page. Also, adding our email address to your address book will in many cases solve the problem.
