Subject: New Additions Update

hi Folks,

Keeping with our Weekly Updates, the Dakota Matrix website has been updated with 36 new additions. There are many specimens still available. Included in this update were two new IMA minerals: **Devitoite and Eurekaumpite**. Please see the website for the composition and occurrence. The **Eurekaumpite** as of this morning is still available. The Devitoite was sold, however we have a few more in stock. Also included in this update are:

Beudantite – Tsumeb

Brandtite – Harstigen mine

Georgeite – Carr Boyd mine

Leadhillite – Beer Cellar mine, Missouri

Rouxelite – Buca Della Vena mine

Saneroite

Tokyoite

Tsumoite

Vladimirite
