Subject: Dakota Matrix Update

Hello to all our customers around the World!

This week we will release 36 new specimens to our New Addition Gallery on **Thursday, April 08, 2010 at 8:00 AM USA Mountain Time**. There will be a mix of rare species from various worldwide locales and some spectacular specimens from Mountain Minerals International.

- Gemmy Clinohumite, beautiful Apatite, and Sodalite var. Hackmanite all from Afghanistan
- Excellent Cerussite from Morocco
- Kesterite from Cornwall, England
- Rouxelite from Italy
- Pargasite from Pakistan and many more!

Also, be sure to check out our Daily Five page there are some really nice specimens this week!
