We have updated our regular website galleries with 48 new specimens. These include neat thumbnails and miniatures from the Pullman collection, as well as some beautiful miniatures and cabinet pieces from the Tate collection.

75 new auction specimens are also posted. Highlights from this include:

*** neat species such as crystallized iodargyrite from Broken Hill, crystallized searlesite from New Mexico, crystallized monticellite, etc.**

*** showy calcite from Indiana**

*** colorful and neatly crystallized vanadinite from Morocco**

*** spherical yellow fluorite from India**

*** gem calcite from China**

*** choice pentagonite from India**

*** many showy miniatures from the Tate collection**

plus many, many other great specimens.

As always, we welcome your comments and suggestions.
