### Welcome to Wrights Rock Shop

I created the Post Denver Gallery with schorlomite, diopside on stalactites of calcite, rubellite from Burma, petalite, hematite, hematite after garnet with bixbyite, copper crystals, cuprite, orange quartz, hematite in calcite on amethyst, rhodochrosite, torbernite, phenakite, calcite, and others on 9/28/10.

Many of the specimens in this gallery are from new finds while a few are from the turn of the 19th century.
