Subject: Superb Find of Sulphohalites

Having trouble viewing this email? [Click here](#)

A RECENT FIND PRODUCED SOME OF THE BEST SULPHOHALITE SPECIMENS THAT HAVE BEEN FOUND TO DATE. THESE RARE SPECIMENS ARE FROM THE TYPE LOCATION - Searles Lake, San Bernardino Co., California. I created the SULPHOHALITE GALLERY from this find on 12/23/10.

Please remember to mention that you are a member of Wright's Mineral News for your 10% discount.

This will be my last update until 12/27/10.

I hope that you have the happiest of holidays.
MERRY CHRISTMAS.

Chris
