We have just added many new specimens to the website. Specimens in all price and size ranges - some of the highlights are superb old classics from the Henkel collection.

Also a reminder that the auctions will close this evening at 7 p.m. eastern standard time. This week we have 90 great pieces from several different collection. Highlights include:

- * pretty Sicilian sulphur specimen
- * Cornish fluorite, excellent Tsumeb mottramite
- * an outstanding green smithsonite from Tsumeb - ex Minette
- * rare svanbergite from Brazil; excellent Japan-law twin quartz from Brazil
- * fine Polish barite
- * bornite from Butte
- * large British barite crystal
- * superb large hematite/quartz from China
- * pretty grossular from Canada
- * interesting faden quartz from France
- * strange fluorite from New Hampshire

plus many, many other great specimens.

As always, we welcome your comments and suggestions.
