Welcome to Wrights Rock Shop

I updated Gallery 2 with faden quartz, Brandberg scepters, fluorite, spessartine, dioptase, chrytocola, malachite, cerussite on malachite, cobaltoan calcite, scolecite on apophyllite and stilbite, wulfenite, spinel and others on 2/23/11.

Many of these specimens are from the Gobins. As you probably know, the Gobin brothers have had many of the most interesting recent finds. The prices are being offered to you at either at or below their wholesale prices.

Please remember to mention that you are a member of Wright's Mineral News for your 10% discount.
