### Welcome to Wrights Rock Shop

I created the African Gallery with cobaltoan calcite, sphaerocobaltite, erythrite, azurite, and cerussite from Morocco; topaz from Zambia; malachite and brochantite from the Congo; diopside, fluorite, and albite from Namibia on 3/3/11.

The malachite and fluorite specimens are very attractive. The Erongo "alien" fluorite and the fluorite on sphaerocobaltite are unique.
