Subject: New Excalibur List #21104 ready!
Attachments: 21104.pdf

Hi Everyone,

The attached PDF contains our newest list, this time with a number of new species and a fairly large assortment of one-of-a-kind specimens from old collections and classic localities.

In addition, we are offering a pair of exceptionally rare yedlinite specimens, a marvelous ore collection from many obscure British Columbia mines, some terrific Bull Moose specimens, wonderful cuprosklodowskites and more.

Although we will be away at the NJESA show, shipments will be processed in the order received, so get your requests in quickly to avoid disappointment.
