We have just added 73 new specimens to our regular website galleries. These are all deaccessions from the collection at the University of Arizona.

Also a reminder that the auctions are closing this evening at 7 pm eastern standard time. There are 100 great specimens - some of very high quality! Highlights include:

- * beautiful tourmaline from Pakistan
- * very fine Japan-law twin quartz from Brazil
- * fine crystallized native copper from Ajo, Arizona
- * neat large dolomite cast with calcite from Tsumeb
- * a very choice large well crystallized polybasite from Arizpe, Mexico
- * numerous fine Chinese specimens
- * gem heliodor
- * beautiful gemmy topaz specimens from Utah and Pakistan
- * numerous interesting rare species
- * Plus many, many other great specimens.

As always, we welcome your comments and suggestions.
