Express Specimens Update from Fabre Minerals 2011 (4)

This section of the site aims to add specimens frequently, in a way that is quicker for us and that ensures reasonable prices, but we will include everything we normally tell you: descriptive text, mineral species, locality, date of the find, size, fluorescence, price, and any other relevant details. We hope that clients find things they like amongst these frequent, well priced updates.

To see them use this link:
