Welcome to Wrights Rock Shop

I updated PreTucson Gallery with uvite, faden magnesite, devilline in selenite, cobaltoan calcite, topaz with twinned magnesite crystals, Japanese twinned quartz on sphalerite, chalcopyrite, apatite, pyromorphite, lazulite and others on 8/16/11.

The uvites, topaz on magnesite, Japanese twin quartz on sphalerite, and faden magnesite specimens are very good.
