We have updated the website with new specimens. Many interesting things from the Wolfgang Henkel collection, azurites from Mexico, etc.

This is also a reminder that the auctions will close this evening at 7 p.m. eastern standard time. There are 100 great specimens - too many good ones to feature all in this mail! Highlights include:

- * fine Kazakhstan silver (ex Minette)
- * old-time high quality British barite and calcite specimens
- * beautiful Idaho vivianite
- * superb matrix ruby thumbnail
- * choice Dal'negorsk calcite, datolite and fluorite specimens
- * a wonderfully crystallized berthierite from Romania
- * gemmy beryl specimens from Brazil
- * large well crystallized Missouri galena
- * showy large plate of wulfenite from Mexico
- * beautiful Tennessee fluorite
- * large well crystallized cassiterite from Bolivia
- * well crystallized vesuvianite from Pakistan

Plus many, many other great specimens.

As always, we welcome your comments and suggestions.
