### Welcome to Wrights Rock Shop

I updated Gallery 14 with kleinite, topaz, celestite, fluorite, trinitite, brochantite, cobaltoan calcite, linarite, creedite, hedenbergite in quartz and others on 3/07/12. The kleinite and trinitite are from previous and are not being found. It is now illegal to collect for trinitite.

The celestite from Poland is especially good. Very few complete "burrs" were found.

Please mention that you are a member of Wright's Mineral News for your 10% discount.
