### Welcome to Wrights Rock Shop

I updated the Request Gallery with anhydrite, torbernite, stokesite with uranmicrolite and stannomicrolite, nevadaite, scepter fluorite, vanadinite, goshenite, very good enargite with arsenopyrite, xenotime, raspberry garnet, magnetite and others on 3/14/12

The enargite and arsenopyrite is especially good. The arsenopyrite are very bright, but do not show well in the photo. The specimen could easily be cleaned more.

This may be my last goshenite of this type from this very unusual find.
