I updated Gallery 12 with red stellerite, crocite, chalcopyrite on sphalerite, diopside, fluorite, endlichite on calcite, celadonite in heulandite, stibnite, artinite, pyromorphite and others on 4/26/12. India is producing fewer minerals and the red stellerite and celadonite in heulandite have never been common.

Please mention that you are a member of Wright's Mineral News for your 10% discount.
