I updated the Showcase Gallery with citrine with feldspar; citrine with manganocalcite; fluorite from Okorusu, Namibia; fluorite from Riemasvaak, S. Africa; cavansite; ajoite in quartz; diopase and others on 5/10/12. The fluorites are very good and becoming more difficult to obtain. The diopase is from a national trophy winning case/collection and collected in the 1970's.
