Wrights Rock Shop Newsletter

I updated GALLERY 13 with spinel galena, barite, chlorite in quartz, fluorite, aragonite and manganooan calcite, datolite, wavellite, chalcedony after spinel, silver, melanite and others on 6/14/12.

This gallery contains the only pseudomorph that I have seen of a spinel.

Please mention that you are a member of Wright's Mineral News for your 10% discount.
