We have updated the website with 68 new specimens of beautiful chalcopyrite and calcite from the Sweetwater Mine, Missouri.

This is a reminder that the auction will close this evening at 7 p.m. eastern standard time. There are 100 great specimens - too many good ones to feature all in this mail! Highlights include:

- * large fine amblygonite from Namibia; this figured in the Namibia book**
- * excellent Peruvian pyrargyrite**
- * gem hiddenite from North Carolina**
- * superb arsenopyrite cluster from Inner Mongolia**
- * several good azurites**
- * cuprite from Cornwall; dyscrasite from Germany**
- * excellent thumbnails including bornite from Kazakhstan; ludlockite from Tsumeb; several gem topaz crystals**
- * large showy blue hemimorphite from China**
- * several nice southern Illinois specimens, fluorite, calcite, etc.**
- * unusual barite from the old coal mines in Iowa**
- * plus many others**

As always, we welcome your comments and suggestions.
