Mineral of the Month Club

August 1, 2012

Dear Club Members:

Welcome to the August offerings. We are both pleased and excited to be able to bring to you some truly rare and exceptional finds, the first of which is our Featured Mineral Proberitite, which comes from the GREATEST PRIVATE COLLECTION of James Minette from the California Boron Pit.

Our August Offerings were mindfully selected to compliment our Featured Mineral and are comprised of superb specimens you're sure to appreciate.

Please click on the links below to view what we have selected for you.

We hope you find each aspect of this month's offerings to be not only educational but inspirational and a beautiful edition to your collection.
