Subject: Sartiorite, Rainbow Obsidian, Legrandite, Japan Law citrine, Torbernite

Welcome to Wrights Rock Shop

I updated Gallery 16 with sartorite, star muscovite, torbernite, legrandite, obsidian, apatite on siderite, Japan law twin citrine , fluorite, orange quartz, and others 3/4/13.

Sartorite, a very rare lead arsenic sulfide that has had the best crystal found the Lengenbach Quarry, was discovered in the late 1800's.
