We have updated the regular website galleries with new specimens. Several fine golds, silvers and silver minerals, German manganites, etc. highlight this lot.

New specimens have been posted for this week's auction. There are 100 great specimens - too many good ones to feature all in this mail! Highlights include:

- * **velvety green Bisbee malachite**
- * **large fine Panasqueira fluorapatite with quartz**
- * **superb sharp lustrous hematite from Italy**
- * **large old-time Weardale fluorite**
- * **neat scheelite from Pakistan**
- * **large attractive deep purple amethyst from Brazil**
- * **numerous rare and unusual species**
- * **neat poker chip calcite from Mexico**
- * **large fine matrix galena from the Viburnum Trend**
- * **Plus many, many others ...**

As always, we welcome your comments and suggestions.
