David,

Don't miss the opportunity to see our new space-compatible iMIC light microscope, which is scheduled to be launched into space in 2015! A full 3D model will be on display at booth #2915 during Neuroscience 2013 in San Diego.

In addition to our space-compatible iMIC, be sure to discover our latest microscopy solution set for neurobiological research. Ranging from live cell and tissue imaging to 3D Volume Imaging at the nanoscale.

[Here's more information about what will be at the show](#)

We hope you will join us at booth #2915 and look forward to seeing you in San Diego!
