Emerald in Quartz
& Biotite

Featured Fine Mineral

Bixbite is our fine mineral of the month and is unique for several reasons. It is known by three names, Bixbite, Red Beryl, and Red Emerald. In 2006, The Jewelers Association named Bixbite as the rarest gemstone on earth. It was named after Maynard Bixby who discovered this reddish-violet beauty in the early 1900's in the WahWah area of the Thomas Mountain Range in Utah.

Bixbite
Utah

See the offer sheet for pricing information

Blessings from Dimitri, Mary, Christine, and Lora,

Celestial Earth Minerals & Mineral of the Month Club
