Correction - Howlite and Goethite Updates

It turns out that for last week's [Howlite Update](#) and last night's [Goethite Update](#), there was an incorrect setting on my website causing all of the specimens in the update to show "Sold" immediately as soon as they were added to the website. I have fixed this and just wanted to let you know, in case you had liked a specimen that was showing "Sold" (if they show sold again, it will be real this time, I promise). Sorry about this!

R.
