We continue to update the website galleries on a near daily basis. The latest update includes many good wholesale flats of specimens from the Viburnum Trend, Missouri. Look for mixed mineral updates tomorrow.

New specimens have been posted for this week's auction. There are 114 great items - too many good ones to feature all in this mail! Highlights include:

- * deep red large rhodochrosite crystal on matrix from Peru
- * beautiful gem topaz on quartz from Pakistan (ex Tate)
- * excellent silver specimens, gem elbaite, malachite/azurite from Tsumeb
- * very fine azurite from Morocco (ex Minette)
- * Plus many, many others ...

As always, we welcome your comments and suggestions.
