Subject: Weekly Update Tonight - Friday 6PM US Mtn Time

Dakota Matrix Minerals

May 1, 2015

Hi Folks,

[Our Weekly Update is tonight at 6pm US Mtn Time.](#)

This week's update will be Under \$50 Minerals.

The Special Edition "**Monteponi Phosgenites**" were released yesterday. We apologize for the Notifier not working. You will need to **DOWNLOAD the new Notifier**. The procedure can be found below.

Phosgenite - Monteponi

Phosgenite - Under SW UV

Downloading the new Notifier:

1. Click here: [DOWNLOAD NOTIFIER](#) and click the "Download Notifier" box.

2. The downloaded file is compressed (a .zip file). Unzip both the DakotaMatrixInstaller.msi and the setup.exe files.
3. The unzipped files will open in a new folder. **Double click the setup.exe file.**
4. A dialog box will open. Follow the instructions.
5. Restart your computer. When we announce the next Special Edition, the Notifier will pop-up.

As a reminder:

1. For all those who may have several specimens on hold, please complete your orders.

1. If you are a registered user, **you have the power** to know ahead of time if a certain mineral will be posted. Just fill out your **WANT LIST**. Go to "[My Account > Lists > Want Lists](#)" and fill out the blanks one mineral per slot. When one of these minerals, on your list is due to be posted, you will get an email notice. You will know ahead of time...usually same day... You need to be a registered user. Please click [Want List for additional help](#).

2. Remember, you do not have to be logged in to order. You can email me or call me (605) 718-9130. Although I'm usually screwing off and not answering the phone after preparing an update. Ordering online through the cart, however, is the surest way of getting your specimens.

Thanks!

Tom
