Kermesite from China

I've posted a very small group of excellent specimens from the 2002 kermesite find in the new [China Kermesite Update \(click here\)](#).

This find produced the best kermesite crystals known to date. Unfortunately, no specimens have been collected since, and kermesite specimens from the Caiwa Mine are now hard to obtain.

These specimens are great quality for this fragile mineral. They were selected from a small lot from the original find, made available this year.

Hope you enjoy them!

Canadian and US Dollar

The currency disparity remains significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).

For all new specimens at McDougall Minerals, see [New Specimens](#).
