## New from the US

I've posted some new specimens from the United States in this [US Update \(click here\)](#). These include wulfenites from the Red Cloud Mine, a Kelly Mine smithsonite, a Colorado amazonite, excellent ramsdellite specimens, Summitville covellite, and more.

Hope you enjoy them!

## Canadian and US Dollar

The currency disparity remains significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).

For all new specimens at McDougall Minerals, see [New Specimens](#).
