Celestial Earth Minerals & Mineral of the Month Club

August Monthly Offerings

This month we are pleased to feature the massive form of Green Calcite that was collected in the Sierra San Juan de Minas (San Juan of the Mines Mountains) in the northern part of the Mexican state of Durango. You will just love the play of light and variety of green colors in these specimens.

Featured Mineral

During the first week of each month, all of our gold-level members will receive their featured mineral in the mail.

If you want to purchase the featured mineral on a larger scale, you can purchase them directly on our website www.celestialearthminerals.com

To shop now click on link below:

Green Calcite, Mexico

When you click on the SEE MORE button under the photo of each specimen, it will open to show you pricing, sizing and a mineral description.

Monthly Offering

This month we have bright granny smith apple colored vesuvianite from the world renowned Jeffrey Mine in Canada. There are sweet splashes of violet color throughout most of these specimens, a.k.a bi-colored vesuvianite.

You will find the monthly offering under the Offerings section of the website.
