John White Collection (1)

I've posted the first in a series of updates with superb specimens from the [John White Collection \(click here\)](#). These wonderful high-quality specimens from John's collection are from a wide range of localities (classic to contemporary) and include a variety of minerals.

Most of you will likely know at least a bit about John, given that among his many accomplishments in the mineral world he is the founder of the Mineralogical Record, former curator of the U.S. National Mineral and Gem Collection at the Smithsonian Institution and author of two books and over 200 articles. I've written a short post about him on the website and have included some great photos – hope you enjoy it! [\(click here\)](#)

Hope you enjoy the update!

Canadian and US Dollar

The currency disparity remains significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).
