Subject: New Additions Update - Tonight (Sunday) - Nov. 15th USA Mtn Time

Hey ALL!

Dakota Matrix will release 42 minerals tonight,:

[SUNDAY Nov. 15 at 7pm US Mountain Time](#)

[Click Dakota Matrix Minerals](#)

There will be three recently obtained KUKSITE (tellurate-phosphate) specimens from the Black Pine mine in Montana. I have more of these, so if you miss one, let me know. I can accommodate any budget.

Also on the list will be a large crystal leaf plate of Silver from Cobalt and several rare minerals including Parafransoletite.

Don't forget, if you have an account (just register), you can enjoy several benefits:

- Queue orders - have us hold specimens for you until you want to complete and pay for your order(s). This saves shipping costs.
- Fill out a "want list" - enter several mineral names. When we are about to upload a mineral on your list you will get an email notifying you that we are about to release the mineral to our live galleries.
- In your account area you can download all the photos of the minerals you purchase.
- many more!

Have fun, stay safe!

Tom & Lori
